

CAER Health Services Ltd. Data Sharing Agreement

This agreement is between Caer Health Services Ltd and the customer

Definitions

1. "Customer" means "any person, organisation, group or entity accepted as a customer of CHS to access OH services"
2. "Data Controller" means "a person who (either alone or jointly or in common with other persons) determines the purposes for which and the manner in which any personal data are, or are to be, processed"
3. "Data processor" means "in relation to personal data, any person (other than an employee of the data controller) who processes the data on behalf of the data controller"
4. "Data Sharing Agreement" means this agreement governing the arrangements by which personal data will be shared between CHS and the Customer as outlined in Schedule 1.
5. "Data Sharing" means "the passing of personal data between the Customer and CHS".
6. "GDPR" means "General Data Protection Regulation"
7. "ICO" means "Information Commissioner's Office"
8. "CHS" means "Caer Health Services Ltd."
9. "Originating Party" means "A Data Controller who shares information for which they are a Data Controller with another Data Controller under this Data Sharing Agreement".
10. "Receiving Party" means "A Data Controller who receives information from an Originating Party under this Data Sharing Agreement".

Applicability

This Data Sharing Agreement applies to all Customers who commission OH services from Caer Health Services and agreement is a pre-requisite for accessing Caer Health services.

Commencement

This Agreement is deemed to be in force from the 25th May 2018

Purpose of Data Sharing

CHS is a provider of professional Occupational Health services to the Customer for the ultimate benefit of workers and organisations.

In order for CHS to provide these services, Data Sharing in certain circumstances is required:

1. From the Customer to CHS
2. From CHS to the Customer

(The nature of the data to be shared includes Sensitive Personal Data & this is detailed in Schedule 1)

Organisations involved in Data Processing

This agreement relates only to Data Processing between CHS and the Customer and as outlined in Schedule 1.

This agreement does not cover the sharing of data with any other party and the respective Data Controller responsibilities for each party will be responsible for any such further data control.

Data Controller Responsibilities

CHS is the Data Controller for information it receives from referring Customers and other sources. CHS is not the Data Processor of the Customer. The Customer is not the Data Processor for CHS.

Data Sharing responsibilities

Schedule 1 outlines the data to be shared. The Originating Party is responsible for ensuring they have the appropriate arrangements, notices and consents in place for the release of information to be shared with the Receiving Party. Control measures are listed next to each data flow type in Schedule 1.

Once information has been received by the Receiving Party, they have Data Controller responsibilities for that body of information that has been received. The Receiving Party should ensure they have the appropriate arrangements, notices and consents in place for that information to be shared within their organisation.

Access and Individual's Rights

Each Data Controller should make it clear in Privacy Notices how individuals can access information. If a subject access request is received by one party and it is believed to relate to information held by another party, the subject should be directed to the other party. This is to ensure there are no unnecessary delays in individual requests being actioned.

Complaints or enquiries relating to data should be directed to the relevant Data Protection Officer for the responsible Data Controller.

Information governance

The datasets to be shared between parties is outlined in Schedule 1. Each Originating Party should take reasonable precautions to ensure the data sent is accurate.

If an inaccuracy is detected: the Originating Party should be notified (if not discovered by the Originating Party). And all parties should rectify the error without undue delay.

The data will be transferred utilising commonly available proprietary means.

Data Retention

Sensitive Personal Information outlined in Schedule 1 will be retained by CHS in the following circumstances for the following time periods:

- i. Where Statutory Health Surveillance has been carried out – 40 years
- ii. Where no Statutory Health Surveillance has been carried out – 10 years from last OH contact

Retention periods will be notified to data subjects in CHS Privacy Notices. In circumstances where there is a change of OH provider, CHS will arrange for transfer of records to the new provider directly with them provided the following criteria are met:

- iii. Consent of individuals
- iv. Assurance of appropriate security and data governance arrangements

However the transfer of such records is not the responsibility of the Customer and is not within the scope of this data sharing agreement.

Data Security

1. Each Data Controller has responsibility for ensuring the security of data within their Domain.
2. Each Data Controller shall implement and maintain processes, procedures and controls to protect the confidentiality and security of data in accordance with good industry practice.
3. Each Data Controller should have appropriate technical and organisational measures in place when sharing personal data including:
 - i. Consent from data subjects
 - ii. Encryption of electronic transmission of sensitive personal data such as using Proton Mail or PDF with password for email attachments.
 - iii. Information sharing within organisations should comply with Data Controller responsibilities.
 - iv. Physical security of data
 - v. Access controls to the data limiting access to only those with a requirement of access.

Data Breaches

1. The GDPR outlined responsibilities, including for reporting to the ICO, for Data Breaches.
2. The Data Controller for the domain where the Breach occurred is responsible for reporting to the ICO and subsequent management.
3. In the event of a Data Breach, the responsible Data Controller should implement further control measures to reduce the risk or prevent a further breach.

Review of Data Sharing arrangements

1. CHS will audit these arrangements as part of ISO9001:2015 compliance.
2. Non-conformances will be rectified and notified to relevant parties, which may be the Originating Party.
3. Material changes in the GDPR or associated guidance may require future amendments.

Termination of services

1. The data shared under this agreement, as outlined in Schedule 1, is on a referral by referral basis.
2. The effect of the Customer not using CHS services means no more data transfers will occur.
3. Both parties will still continue to hold Data Controller responsibilities for their information domain including responding to contacts from data subjects.

Schedule 1 – Data to be shared and customer controls

Data From	Data To	Data Type	Description	Customer Controls
Customer	CHS	CHS Referral Form Information	Data fields required for completion of a referral form including Name, DOB, Employee phone number, Employee address, Job Title, reason for referral, background information and specific questions.	Make sure Privacy notices and/or consent is provided by data subjects. Use the CHS online portal for making referrals and providing supplementary information or encrypt all sensitive information if sending my email. Make sure information is accurate e.g. names, addresses etc.
Customer	CHS	Supplementary Information	In addition to the referral form information, additional documents to support the referral such as absence records, job descriptions, medical reports received by the employer, meeting minutes, risk assessments carried out, including Individual Stress Risk Assessment.	Make sure Privacy notices and/or consent is provided by data subjects. Use the CHS online portal for making referrals and providing supplementary information or encrypt all sensitive information if sending my email.
Customer	CHS	Employee Lists for Health Surveillance Services	Names, dates of birth and occupations/exposures of employees in order to create and manage health surveillance call and recall arrangements. Health Surveillance is a statutory requirement.	Make employees aware as part of normal communication regarding health surveillance e.g. in Privacy Notices that their information will be shared this way. Ensure such transmissions are encrypted e.g. password encrypted Excel spreadsheet.
Customer	CHS	Employee lists of those to receive OH services such as vaccination or wellbeing medicals	Names, dates of birth and work location to allow arrangements and documentation to be in place for employees accessing these services.	Make employees aware, as part of the communication regarding availability of the service or in Privacy Notices, that this information will be shared with CHS in order to provide the service.

Schedule 1 (Continued) - Data to be shared and customer controls

Data From	Data To	Data Type	Description	Customer Controls
Customer	CHS	Supplementary Information after a referral has been made	Outwith a referral, there may be a need to provide CHS with risk assessment information, including stress risk assessment (ISRA) information, further meeting minutes etc.	Make individual aware specifically that this information is being shared with OH and only transmit it using secure means e.g. encryption.
CHS	Customer	Output report	The OH report produced by the CHS clinician is sent to the referring person (as per the referral form) only with explicit consent of the data subject.	Ensure the 'referring person' section on the referral form is correct as this is where the report will be dispatched to. Make sure internal notices and consents allow the sharing of information in OH reports with, for example, managers. Ensure security of this sensitive personal information within your domain.
CHS	Customer	Supplementary reports and advice	Further medical guidance in supplementary reports	Make sure internal notices and consents allow the sharing of information in OH reports with, for example, managers. Ensure security of this sensitive personal information within your domain.
CHS	Customer	Health Surveillance Recall Lists and outcome reports	Lists of workers with name, DOB, date or surveillance done and due, status of each assessment e.g. under review, confirmed problem. Employees consent to CHS notifying employers of this data at the beginning of the process.	Make sure internal notices and consents allow the sharing of information in recall lists with, for example, Health & Safety or HR. Ensure security of this sensitive personal information within your domain.
CHS	Customer	Invoice for services	Invoices for services state the employee name and a very broad grouping of service received e.g. OH consultation, PEQ, NWQ, Supplementary report.	Appropriate confidentiality agreements with staff processing invoices.
